Anisha More

Artificial Intelligence & Data Science Engineering Student

+91 9321759130 amanishamore1@gmail.com Mumbai, India

EDUCATIONS

Mumbai University | Mumbai — 2025 - 2028
B.E. in Artificial Intelligence & Data Science — *CGPA : 9.27*

Shri Bhagubhai Mafatlal polytechnic | Mumbai — 2022 - 2025
Diploma in Electronics & Telecommunication Engineering — *CGPA : 9.3*

Vivek Vidyalaya | Mumbai — 2021 - 2022
SSC (10th Standard) — *CGPA : 83%*

WORK EXPERIENCES

Internship Trainee | Internship — 2024 - 2025
NM Automation & Control Pvt. Ltd. — *On-site • Malad, Mumbai*

- **Gained practical exposure** to industrial automation systems, PLCs, HMIs, sensors, and control panels.
- **Learned automation system design**, troubleshooting, wiring practices, and industrial safety procedures.
- **Observed real-world applications** of industrial control and automation technologies.

Technologies / Skills Used : *PLC, HMI, sensors, control panels*

PROJECTS

AI-Based Blogging Website

- **Developed a blogging platform** integrated with **AI features** to assist users in generating and enhancing blog content.
- **Implemented content generation**, editing assistance, and user-friendly blog management functionalities.
- **Focused on improving content creation efficiency** and user engagement.

Smart Expense Splitter

- **Developed an application** to manage and split group expenses efficiently.
- **Automated expense tracking** and balance calculations among multiple users.

PLC-Based Door Interlocking System

- **Designed and implemented** an industrial door interlocking system using **PLC and HMI**.
- **Integrated temperature monitoring**, emergency override, auto-locking, and alarm features.

SKILLS

Databases :	MySQL, SQLite
Frameworks :	Django
Languages :	English, Hindi, Marathi
Programming Languages :	Java, Python, SQL
Soft Skills :	Problem Solving, Communication, Teamwork, Leadership, Time Management
Tools & Platforms :	VS Code, MySQL, Microsoft Office, Linux
Development :	HTML, CSS

HOBBIES & INTERESTS

- Dancing
- Content Creation
- Learning New Technologies
- Coding & Problem Solving
- Reading Technology Blogs
